L2.05-5 (CONT'D)

(g) **MULTIPLE OFFERS.** Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(h) **LATE SUBMISSIONS, MODIFICATIONS, REVISIONS, AND WITHDRAWALS OF OFFERS.**

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "**late**" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(i) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(j) Proposals submitted in response to this solicitation shall be in English and in U.S. dollars unless otherwise permitted by the solicitation.

(k) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(l) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(m) **CONTRACT AWARD.**

(1) **RFPs ONLY (not applicable to IFBs).**

(i) While the Government intends to evaluate offers and award a contract without discussions, it reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.

(ii) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(iii) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(2) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose offer(s) conforming to the solicitation will be most advantageous to the Government, cost or price and other factors (including subfactors) specified elsewhere in this solicitation, considered.

(3) The Government may reject any or all offers if such action is in the Government's interest.

(4) The Government may waive informalities and minor irregularities in offers received.

L2.05-5 (CONT'D)

(5) The Government may accept any item or group of items of a proposal, unless the offeror qualifies the proposal by specific limitations. Unless otherwise provided in the Schedule, proposals may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(6) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time specified in the offer shall result in a binding contract without further action by either party.

(7) The Government may disclose the following information in postaward debriefings to other offerors:

- (i) The overall evaluated cost or price and technical rating of the successful offeror;
- (ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;

M41 EVALUATION OF OFFERS - TRANSPORTATION RATES AND RELATED COSTS (DOMESTIC PC&S AND LUBES) (DESC SEP 2000)

(a) Transportation rates and related costs shall be used in the evaluation of f.o.b. origin bids and proposals. The best available transportation rates and related costs in effect on or to become effective prior to the expected date of initial shipment and on file or published at the date of the bid opening or initial proposal due date shall be used in the evaluation. However, when transportation rates and related costs that cover the traffic are filed or published after the bid opening or initial proposal due date and there were no applicable rates or costs in existence on that date, these rates and costs shall be so identified and shall be used in the evaluation.

(b) For truck rates, a guaranteed traffic (GT) rate will be used in the evaluation. Where there is no GT rate, a state-to-state, a point-to-point tender rate, or a standing route order (SRO) rate, whichever is lower, will be used. Where there is no GT, state-to-state, point-to-point tender rate, or SRO rate file, a regional rate will be used. If none of the former rates exist for a given route, a quote will be obtained and used for evaluation. In the event that none of the former rates exist and a market survey for quotes results in no responses, a CONUS-wide tender rate will be used in evaluation.

(c) If the offeror desires to guarantee a rate other than that covered in (a) and (b) above, such rate shall be considered in the evaluation of offers and shall become a part of any resultant contract.

(d) When Government property is to be furnished and shipped by the Government under a contract to a point specified by the prospective supplier in its bid or proposal, transportation costs shall be a cost factor in the evaluation of bids or proposals.

M43.05 EVALUATION OF OPTIONS (JUL 1990)

Except when it is determined in accordance with FAR 17.206(b) not be in the Government's best interest, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

(FAR 52.217-5)

M72 EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS) (DESC APR 1997)

- (a) Offerors are expected to submit offers in full compliance with all terms and conditions of this solicitation.
- (b) Any exceptions/deviations to the terms and conditions of this solicitation will result in the Government's determination that either--
 - (1) The exception/deviation is material enough to warrant rejection of the offer in part or in full; or
 - (2) The exception/deviation is acceptable.
- (c) If the exception/deviation is in reference to a specification contained in this solicitation and the offeror cannot supply product fully meeting the required specification(s), the product can be offered for consideration provided the offeror clearly indicates, by attachment to the offer, the extent to which any product offered differs from the required specification(s).
- (d) If the exception/deviation is in reference to a particular test, inspection, or testing method contained in this solicitation, the offer can be considered provided the offeror clearly indicates, by attachment to the offer, the extent to which its offer differs from those requirements.
- (e) If the exception/deviation is determined acceptable, offered prices may be adjusted, for evaluation purposes only, by the Government's best estimate of the quantitative impact of the advantage or disadvantage to the Government that might result from making an award under those circumstances.

ADDENDUM #2 - POSTAWARD SOLICITATION PROVISIONS**B19.19 ECONOMIC PRICE ADJUSTMENT (PC &S) (DESC JUL 1999)****(a) WARRANTIES.** The Contractor warrants that --

(1) The unit prices set forth in the Schedule do not include allowances for any portion of the contingency covered by this clause; and

(2) The prices to be invoiced hereunder shall be computed in accordance with the provisions of this clause.

(b) DEFINITIONS. As used throughout this clause, the term--**(1) Base price** means--

(i) The unit price offered for an item and included in the contract award schedule; or

(ii) During any subsequent program year, either the effective contract price as of the start of the subsequent program year, or the price agreed upon as of the start of the subsequent program year.

(2) **Base reference price** means the preselected reference price for an item as published on June 11, 2001. In the event one or more applicable reference prices are not (or were not) published on the date shown, then the term **base reference price** means the preselected reference price for an item as published on the date nearest in time prior to the date shown.

(3) **Reference price** means that published reference price or combination of published reference prices preselected by the Government for price adjustment for individual items by product, market area, and publication as specified in (f) below.

(A) **F.O.B. ORIGIN.** The date and time vessel commences loading.

(B) **F.O.B. DESTINATION.** The date and time vessel commences discharging.

(ii) **FOR ALL OTHER TYPES OF DELIVERIES.** The date product is received on a truck-by-truck basis.

(5) **Calendar week** means a consecutive seven-day period, beginning with whichever day of the week is specified in (c)(1) below.

(c) **ADJUSTMENTS.** Contract price adjustments shall be provided via notification through contract modifications and/or posting to the DESC web page under the heading **Doing Business with DESC** to reflect any price change pursuant to this clause.

(1) DAY OF PUBLICATION.

(i) **PLATT'S BUNKERWIRE AND BUNKERFUELS REPORT.** For items employing Platt's Bunkerwire or Bunkerfuels Report as an escalator, the reference price in effect on the date of delivery shall be that item's preselected reference price that is published on the **Tuesday** of the calendar week in which the delivery is made, or, in the event there is no publication on Tuesday of that week, it shall be the item's preselected reference price published on the previous Tuesday.

(ii) **OTHER PUBLICATIONS.** Except for items employing Platt's Bunkerwire or Bunkerfuels Report as an escalator, the reference price in effect on the date of delivery shall be that item's preselected reference price that is published on the **Monday** of the calendar week in which the delivery is made, or, in the event there is no publication in that week, it shall be the item's preselected reference price as last previously published.

(2) **CALCULATIONS.** The prices payable hereunder shall be determined by adding to the award price the same number of cents, or fraction thereof, that the reference price increases or decreases, per like unit of measure. All arithmetical calculations, including the final adjusted unit price, shall be carried to six decimal places, truncated.

(i) If averages are published within a given publication, then these averages will be used.

(ii) If averages are not available within a given publication, manually calculated averages will be used.

(3) REVISION OF PUBLISHED REFERENCE PRICE. In the event--

(i) Any applicable reference price is discontinued or its method of derivation is altered substantially; or

(ii) The Contracting Officer determines that the reference price consistently and substantially failed to reflect market conditions--

the parties shall mutually agree upon an appropriate and comparable substitute for determining the price adjustments hereunder. The contract shall be modified to reflect such substitute effective on the date the reference price was discontinued, altered, or began to consistently and substantially fail to reflect market conditions. If the parties fail to agree on an appropriate substitute, the matter shall be resolved in accordance with paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract.

(4) **FAILURE TO DELIVER.** Notwithstanding any other provisions of this clause, no upward adjustment shall apply to product scheduled under the contract to be delivered before the effective date of the adjustment, unless the Contractor's failure to deliver according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence within the meaning of paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract, or is the result of an allocation made in accordance with the terms of the ALLOCATION clause of this contract, in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(5) **UPWARD CEILING ON ECONOMIC PRICE ADJUSTMENT.** The Contractor agrees that the total increase in any contract unit price pursuant to these economic price adjustment provisions shall not exceed 60 percent of the base price in any applicable program year (whether a single year or a multiyear program), except as provided hereafter.

B19.19 (CONT'D)

(i) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. The notification shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with an appropriate explanation and documentation as required by the Contracting Officer.

(ii) If an actual increase in the reference price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill pending or future orders for such item, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing.

(d) **EXAMINATION OF RECORDS.** The Contractor agrees that the Contracting Officer or designated representatives shall have the right to examine the Contractor's books, records, documents, or other data the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause.

(e) **FINAL INVOICE.** The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required by this clause.

C16.69 FUEL SPECIFICATIONS (PC&S) (DESC SEP 2000)

Supplies delivered under this contract shall conform to all Federal, State, and local environmental requirements applicable to the geographic location of the receiving activity on the date of delivery. The list of such requirements contained in this contract is not intended to be a complete list, and the Contractor shall be responsible for determining the existence of all such requirements at the time deliveries are made. Selected regional environmental requirements are highlighted in the SPECIFICATIONS (CONT'D) clause. In the event that a Federal, State, or local environmental requirement is more stringent than a specification contained in this contract, the Contractor shall deliver product that complies with the more stringent requirement. Product that fails to meet the more stringent requirement will be considered to be a nonconforming supply. Product(s) to be supplied shall fully meet the requirements of the applicable specification(s) as cited below.

NOTE: Gasoline gasohol and reformulated gasoline Reid Vapor Pressure (RVP) specification requirements are seasonal and vary geographically throughout the United States. Therefore, Contractors are expected to know the local, State, or Federal RVP requirements of areas being supplied and comply with those requirements.

(a) **GASOLINE, AUTOMOTIVE, UNLEADED, GRADES REGULAR, MIDGRADE, AND PREMIUM.** Product shall conform to ASTM D 4814, as modified below.

(1) OCTANE REQUIREMENTS.

(i) Unleaded automotive gasoline shall meet the Anti-Knock Index (AKI) requirements shown in the table below.

<u>NATIONAL STOCK NUMBER</u>	<u>PRODUCT NOMENCLATURE (6)</u>	<u>AKI, MINIMUM</u>
9130-00-148-7103	Gasoline, Regular Unleaded	87
9130-01-272-0983	Gasoline, Midgrade Unleaded	89
9130-00-148-7104	Gasoline, Premium Unleaded	91

(ii) Reductions for altitude and seasonal variations are allowed for all AKI values in accordance with figures X1.2 and X1.3 of ASTM D 4814.

(iii) For regular unleaded gasoline, in addition to an AKI of 87 minimum, the MON must not be less than 82.

(2) OXYGENATE REQUIREMENTS.

(i) In order to achieve minimum/maximum oxygen content limits specified per Federal, State, and local environmental requirements, supplies shall only include oxygenates that are permitted by environmental regulations applicable to the time and place of delivery.

(ii) Blending of oxygenates into gasoline to meet oxygenated fuel requirements shall be accomplished by mechanical mixing or agitation in a tank, or by in-line blending, prior to loading the product into transport equipment, and the resultant product must meet contract requirements.

(3) See the SPECIFICATIONS (CONT'D) clause for additional regional gasoline requirements.

(b) **GASOHOL, AUTOMOTIVE, UNLEADED, GRADES REGULAR, MIDGRADE, AND PREMIUM.** Products shall conform to Commercial Item Description (CID) A-A-52530 dated October 10, 1995, as modified below. In accordance with Executive Order 12261 of January 5, 1981, "Gasohol in Federal Motor Vehicles," Gasohol may be considered an acceptable substitute for Unleaded Gasoline. The Unleaded Gasoline items that permit the substitution of Gasohol are identified in the Schedule. Contractors are required to state, for each line item in their offer, whether Gasohol will be provided. Contractors will not be permitted to substitute Unleaded Gasoline under line items awarded as gasohol. Also, Contractors are not permitted to substitute gasohol for gasoline under line items awarded as gasoline, except when Government regulations mandate use of fuel containing an oxygenate for control of carbon monoxide pollution.

(2) OXYGENATE REQUIREMENTS.

(i) Ethanol concentration shall be between 9 and 11 volume percent.

(ii) Blending of ethanol into gasoline to make gasohol shall be accomplished by mechanical mixing or agitation in a tank, or by in-line blending, prior to loading the product into transport equipment, and the resultant product must meet contract requirements.

(3) See the SPECIFICATIONS (CONT'D) clause for additional regional requirements affecting gasohol.

(c) REFORMULATED GASOLINE, AUTOMOTIVE, UNLEADED, GRADES REGULAR, MIDGRADE, AND PREMIUM. (1) Requests for waivers and deviations shall be submitted by the Contractor to the Contracting Officer with a copy to the Quality Representative (QR). Each request shall provide the following information: Contractor name; contract number; contract line item and product, if applicable; clause number, paragraph and subparagraph, as appropriate; the nature of the request; the reason for the request; the corrective action being taken by the Contractor to correct and prevent recurrence of the condition(s) causing the nonconformance; and equitable price adjustment offered over the administrative fee. In extraordinary situations, the Contractor may initially submit the request for a deviation or waiver through the cognizant QR to the Contracting Officer or the Contracting Officer's Representative (COR) in the Bulk Fuels Business Unit, Product Technical and Standardization Division, Defense Energy Support Center (DESC). Extraordinary situation requests shall be submitted formally to the Contracting Officer prior to close of business of the next DESC normal workday. As used in this clause, the term "extraordinary situation" means the matter cannot await resolution until the DESC normal workday (0800 to 1630 hours), Monday through Friday - Federal holidays excluded. In addition, if either the Contracting Officer or the COR cannot be reached, the Duty Officer shall be contacted and provided the necessary information to forward to the proper individuals as soon as possible. The Duty Officer's telephone number is (800) 286-7633, (703) 767-8420, or DSN 427-8420.

(2) If the waiver is granted, the contract will be modified to provide an equitable price reduction or other adequate consideration commensurate with the waiver being granted. If the situation dictates, a waiver may be granted without prior agreement on price adjustment or other consideration subject to agreement by the Contractor, or its representative, to subsequent negotiation. Such agreement shall be documented on the receiving document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS -- COMMERCIAL ITEMS clause of this contract.

(3) If the waiver is granted and the nonconforming supplies are accepted, then in no event will consideration be less than \$250 to cover administrative costs, plus any additional cost of Government inspection or tests if reinspection or retest is necessary.

(4) If the waiver is granted modifying this contract but the supplies accepted are nevertheless determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed upon in support of the waiver. If, however, this consideration exceeds \$500, a second contract modification shall be issued reducing the Contractor's obligation to \$500 (the administrative cost of issuing the two required modifications).

(b) When notification of nonconforming supplies is received after the supplies have been accepted, and the Government determines not to exercise its right to require repairs or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price under the INSPECTION OF SUPPLIES -- FIXED-PRICE clause or the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause, then in no event will consideration be less than \$250 to cover administrative costs. This \$250 fee is in addition to--

- (1) Consideration commensurate with the extent of nonconforming supplies; and
- (2) Cost of Government inspection or tests if reinspection or retest is necessary.

The administrative fee will apply to each claim letter issued for off-specification product delivered to an activity.

F1.01-1 DELIVERY CONDITIONS FOR TRANSPORT TRUCKS, TRUCKS AND TRAILERS, AND TANK WAGONS (DESC APR 1997)

IMPORTANT NOTE on EPA TESTING OF UNDERGROUND TANKS. If the "volumetric" method is used for annual EPA testing of underground tanks, the "topping off" of tanks for this test is outside the scope of DESC requirements contracts.

(a) **F.O.B. ORIGIN.** On items calling for delivery at Contractor's refinery, terminal, or bulk plant f.o.b. transport truck, truck and trailer, or tank wagon--

- (1) Supplies ordered hereunder shall be delivered, at Contractor's expense, into equipment specified in the Schedule.
- (2) Unless otherwise specified in the Schedule, all deliveries shall be made on the day specified in the delivery order unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that the Contractor shall have received the order at least 48 hours prior to the day so specified.

(b) **F.O.B. DESTINATION.** On items calling for delivery f.o.b. destination by means of transport truck, truck and trailer, or tank wagon--

- (1) The Contractor shall not be required to deliver by transport truck or truck and trailer a quantity less than a full load nor into more than one storage tank, with the following exceptions:

- (i) An order placed under an item of this contract calling for delivery by transport truck of motor gasoline, fuel oil, diesel fuel, or kerosene, or, if this procurement is for Central America only, jet fuel, may require delivery of a quantity as low as 5,200 gallons whenever the activity is restricted either by a tank capacity or by a directive from receiving a larger quantity; and

F1.01-1 (CONT'D)

(ii) Where the Schedule provides for multiple drop delivery, the Contractor may be required to deliver into more than one storage tank. Where truck and trailer is the method of delivery specified, the Contractor may, at its option, make delivery by transport truck. In the case of deliveries in Alaska, where truck and trailer or transport truck is the method of delivery specified, the Contractor may, at its option, make delivery by tank wagon.

(2) Unless otherwise specified in the Schedule, all deliveries shall be made on the day specified in the delivery order unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that the Contractor shall have received the order at least 48 hours prior to the day so specified.

(3) The Contractor shall not be required to deliver by tank wagon a quantity of less than 575 liters (or 150 gallons) but, at the Government's option, may be required to deliver into more than one storage tank.

(4) When delivery is made by tank wagon, such wagon shall be equipped with pump, meter, and a minimum of 100 feet (30 meters) of hose. Where delivery is made by transport truck or truck and trailer, such delivery equipment shall be equipped with a minimum of 15 feet of hose.

(5) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility, the Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time.

(6) Unless otherwise provided in the Schedule, free time for unloading trucks, transport trucks, or trucks and trailers shall be unlimited.

(7) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility—

(i) The Contractor shall provide properly maintained delivery equipment and properly trained delivery personnel to reasonably assure that delivery can be made without damage to vegetation and asphalt pavement adjacent to storage facilities being filled. The Contractor's delivery personnel who have not exercised reasonable care and delivery equipment that is poorly maintained may be refused entrance to the installation by the installation Commander.

(ii) The Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time. (DESC 52.247-9FH5)

F1.09-1 ANNOTATION OF SHIPPING DOCUMENTS (DESC AUG 1999)

(a) **Trucks with temperature-compensating meters.** For deliveries when temperature compensating meters are used to determine quantity, the shipping document (truck's metered ticket) shall be annotated with the API gravity (or density), net quantity, and a statement that a temperature compensating meter was used to determine quantity.

(b) **Trucks without temperature-compensating meters.** For deliveries when quantity is determined without volume correction to 60°F (15°C) as permitted in the DETERMINATION OF QUANTITY clause, paragraph (b), the shipping document (truck's metered ticket) shall be annotated with the API gravity (or density), gross quantity, and a statement that volume correction was not required.

(c) **For all other deliveries, including those using a loading rack meter ticket as the shipping document.** The shipping document shall be annotated with the gross and net gallons (or gross and net liters), the observed and corrected API gravity (or density), and the temperature at which the product was measured.

(DESC 52.211-9FB1)

F1.09-2 DETERMINATION OF QUANTITY (PC&S) (DESC MAY 2000)

(a) **QUANTITY.** The quantity of supplies furnished under this contract shall be determined as follows:

(1) **DELIVERIES INTO OR BY TANKER/BARGE**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the invoice quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Shore tank measurements; or
- (b) Calibrated meter.

(B) The Government will have the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.**

(A) On items requiring delivery on an f.o.b. destination basis, the invoice quantity shall be determined on the basis of--

- (a) Calibrated meter if the delivery conveyance is so equipped; otherwise--
- (b) Gauging the receiving shore tank; or
- (c) Gauging the tanker/barge before and after delivery.

(B) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(2) **DELIVERIES INTO OR BY TANK TRUCK/TRUCK AND TRAILER/TANK WAGON.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the invoice quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Certified capacity tables of the conveyance loaded;
- (b) Calibrated meter; or
- (c) Weight, using calibrated scales.

(B) The Government has the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.** On items requiring delivery on an f.o.b. destination basis, the invoice quantity shall be determined as follows:

(A) If the narrative requires a tank truck with meter, a truck and trailer with meter, or tank wagon (which is always equipped with a meter), that meter shall be used to determine invoice quantity at time of delivery. The quantity shall be read directly from the meter; otherwise--

(B) The Government may elect to determine invoice quantity at the receiving activity at the time of delivery on the basis of--

- (a) Weight, using calibrated scales; or
- (b) A calibrated meter on the receiving tank system.

(C) If the Government does not require method (a)(2)(ii)(A) above and does not elect to use method (a)(2)(ii)(B) above, the Contractor may then elect to provide equipment that enables the Government and the Contractor to determine invoice quantity at destination at the time of delivery by one of the following methods:

- (a) A calibrated meter on the delivery conveyance. The quantity shall be read directly from the meter; or
- (b) Gauging the delivery conveyance. The certified capacity tables must be made available at the time of delivery. This method may not be used in areas where environmental restrictions prohibit the opening of dome hatches; or
- (c) Certified tank calibration markers. Certified tank calibration markers will not be accepted unless the conveyance is full to the marker and the entire quantity is off-loaded at the receiving activity. This method may not be used for deliveries to Army activities or in areas where environmental restrictions prohibit the opening of dome hatches.

(d) Provide the receiving activity with the net quantity determined at the loading point by a calibrated loading rack meter or calibrated scales. This quantity must be mechanically imprinted on the loading rack meter ticket that is generated by the loading rack meter or scales.

(D) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(iii) **WATER BOTTOMS.**

- (A) Every delivery must be free of all water bottoms prior to discharge; and
- (B) The Contractor is responsible for their removal and disposal.

(b) **VOLUME CORRECTION TO STANDARD TEMPERATURE.** To convert gross measured quantities to net quantities of gallons at 60°F (or liters at 15°C), use Volume Correction Factors and the API gravity (or density at 15°F) (see (c)(1) below). Volume correction to a standard temperature of 60°F (or liters at 15°C) is required for--

- (1) All product volumes measured in storage (receiving) tanks, tankers, and barges;
- (2) All product volumes measured by meters on the (receiving) tank system;

F1.09-2 (CONT'D)

(3) All product volumes determined by weight using a calibrated scale;
 (4) All product volumes determined by loading rack meter;
 (5) All product volumes of residual fuels measured in tank trucks or truck and trailers. For this purpose, residual fuels are any products with a viscosity equal to or greater than a regular (not light) No. 4 Fuel Oil (ASTM D 396); and

(6) All other product volumes measured in tank trucks or truck and trailers that are in excess of 5,000 gallons except for deliveries where the meter on the delivery conveyance is used to determine quantity. If the meter on the delivery conveyance is used to determine invoice quantity, volume correction shall not be performed unless the meter is equipped to volume correct automatically. The invoice quantity shall be determined directly from the meter reading.

(c) **MEASUREMENT STANDARDS.** All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards (MPMS). Outside the United States, other technically equivalent national or international standards may be used. **Certified capacity tables** shall mean capacity tables prepared by an independent inspector or any independent surveyor. In addition, the following specific standards will be used as applicable:

(1) **API MPMS Chapter 11.1, Volume Correction Factors** (API 2540/ASTM D 1250/IP 200/ISO 91-1). Either the printed version or the computer subroutine versions of the standard may be used. In case of disputes, the computer subroutine will be the referee method.

(i) For all fuels and fuel oils, Volume II, Tables 5B and 6B (or Volume VIII, Tables 53B and 54B), shall be used to determine the volume correction factor.

(ii) Volume XII, Table 52 shall be used to convert cubic meters at 15°C to barrels at 60°F, except when this method is restricted by foreign law. Convert liters at 15°C to cubic meters at 15°C by dividing by 1,000. Convert gallons at 60°F to barrels at 60°F by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be stated in the offer.

(iii) If the original measurement is by weight and quantity is required by U.S. gallons, then--

(A) Volume XII, Table 58, shall be used to convert metric tons to U.S. gallons at 60°F. Convert kilograms to metric tons by dividing by 1,000.

(B) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60°F.

(2) **API MPMS Chapter 4, Proving Systems.** All meters used in determining product volume shall be calibrated using this standard with the frequency required by local regulation (foreign or domestic). If no local regulation exists, then the frequency of calibration shall be that recommended by the meter manufacturer or every 6 months, whichever is more frequent.

128.01 FEDERAL, STATE, AND LOCAL TAXES (DESC NOV 1993) (DEVIATION)

(a) As used in this clause--

Contract date means the date set for bid opening or, if this is a negotiated contract or a modification, the date set for best and final offers.

All applicable Federal, State, and local taxes and duties means all taxes and duties that the taxing authority, including Puerto Rico and other possessions of the United States, are imposing and collecting on the transactions or property covered by this contract pursuant to written ruling or regulation in effect on the contract date.

After-imposed tax means any new or increased Federal, State, or local excise tax or duty, except social security or other employment taxes, on the transactions or property covered by this contract that the Contractor is required to pay or bear the burden of as the result of legislative, judicial, or administrative action taking effect after the contract date.

After-relieved tax means any amount of Federal, State, or local excise tax or duty, except social security or other employment taxes, that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear the burden of, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date.

(b) The contract price includes all applicable Federal, State, or local taxes and duties, except as may be otherwise provided. (For petroleum contracts, see the FEDERAL, STATE, AND LOCAL TAXES EXCLUDED FROM CONTRACT PRICE clause.)

(c) The contract price shall be increased by the amount of any after-imposed tax if the Contractor states in writing that the contract price does not include any contingency for such tax.

(d) The contract price shall be decreased by the amount of any after-relieved tax.

(e) The contract price shall also be decreased by the amount of any excise tax or duty, except social security or other employment taxes, that the Contractor is required to pay or bear the burden of, or does not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer.

(f) The Contractor shall promptly notify the Contracting Officer of all matters relating to any excise tax or duty that reasonably may be expected to result in either an increase or decrease in the contract price and shall take appropriate action as the Contracting Officer directs.

(g) The Government shall, without liability, furnish evidence appropriate to establish exemption from any Federal, State, or local tax when the Contractor requests such evidence and a reasonable basis exists to sustain the exemption.

(DESC 52.229-9F15)

(a) **FEDERAL EXCISE TAXES EXCLUDED.** All contract prices for fuel and oils furnished under this contract exclude Federal Excise Taxes (FET). The taxes should be handled on the Contractor's invoices as follows:

(1) **MOTOR GASOLINE/GASOHOL.** The FET should be included on the Contractor's invoice as a separate item. The following FET will apply:

<u>FET PER GALLON</u>	<u>PERCENTAGE OF ALCOHOL</u>
\$0.184	0.0% up to but not including 5.7%
\$0.1532	5.7% up to but not including 7.7%
\$0.1424	7.7% up to but not including 10%
\$0.130	10% and above

(3) **FUEL OIL (BURNER GRADES) NUMBERS 1, 2, 4, 4 (LIGHT), 5 (LIGHT), 5 (HEAVY), AND 6.** There is no FET on any of these fuel oils (burner grades) although lighter grades (numbers 1, 2, and 4 (light)) must be dyed. It is the Contractor's responsibility to obtain fuel oils (burner grades numbers 1, 2, and 4 (light)) meeting Internal Revenue Service (IRS) dyeing requirements.

(4) **DIESEL AND NONAVIATION GRADE KEROSENE FUEL.**

(i) **UNDYED DIESEL AND NONAVIATION KEROSENE FUEL.** The FET of \$0.244 per gallon SHOULD BE INCLUDED on the Contractor's invoice as a separate item.

(ii) **DYED DIESEL AND NONAVIATION KEROSENE FUEL.** The FET of \$0.244 per gallon SHOULD NOT BE INCLUDED on the Contractor's invoice since all dyed diesel fuel may be used only for tax exempt purposes.

(5) **JET FUEL.** The FET of \$0.219 per gallon should be included on the Contractor's invoice as a separate item.

I28.02-2 (CONT'D)

(6) **EXEMPT SALES.** A Contractor authorized by IRS to sell gasoline, undyed diesel fuel, and nonaviation kerosene tax free should not invoice the FET on sales to the National Guard, on sales to the Government of the District of Columbia, nor on sales of jet fuel and aviation gasoline for military aircraft.

(b) **STATE AND LOCAL TAXES EXCLUDED.** All contract prices exclude State and local excise taxes on fuels (including gasoline taxes, motor fuel taxes, diesel fuel taxes, special fuel taxes, aircraft fuel taxes, jet fuel taxes, heating oil taxes, kerosene taxes, lubricating oil taxes, and naphtha, solvent, benzol, and benzine taxes). Any applicable taxes (for which no exemption applies) should be included on the Contractor's invoice as a separate item in accordance with the terms of this contract.

(c) **CALIFORNIA SALES AND USE TAX.** All contract prices exclude the California State Sales and Use Tax.

(d) **KENTUCKY SALES AND USE TAX.** All contract prices exclude the Kentucky Sales and Use Tax. Contracts awarded under this solicitation are exempt from the Kentucky Sales and Use Tax per Kentucky tax exemption obtained by each activity.

(f) **INSPECTION FEES.** Unless an exemption applies, all contract prices INCLUDE State and local inspection fees.

(g) **CONNECTICUT PETROLEUM PRODUCTS GROSS EARNINGS TAX.** All contract prices exclude the Connecticut Petroleum Products Gross Earnings Tax. This tax should be included on the Contractor's invoice as a separate item only if no exemption applies.

(h) **REIMBURSEMENT.** The Government will reimburse the Contractor for the amount of any tax specifically excluded from the contract price pursuant to this clause if no exemption applies.

(i) **LICENSES** Federal, State, and local licenses or other activities necessary to establish Contractor's entitlement to do business or to tax exemption for transactions under this contract are the responsibility of the Contractor. Failure to obtain appropriate licenses or to follow required procedures shall preclude the reimbursement of taxes which would otherwise be exempt.

I28.03-2 TAX EXEMPTION CERTIFICATES (DESC JUL 1999)

(a) **FEDERAL, STATE, AND LOCAL EXCISE TAXES.** Contractor's request for tax exemption certificates covering any Federal, State, local excise tax, or Kentucky Sales and Use Tax excluded from the contract price pursuant to the terms of this contract shall be forwarded with Contractor's invoices or as otherwise indicated by the Ordering Officer, except for (1) deliveries of motor gasoline or diesel fuel to Army and Navy activities, in which case requests for tax exemption certificates should be forwarded to the Ordering Officer, and (2) deliveries of all fuels to the National Guard, in which case such activities shall indicate the procedure for processing tax exemption certificates. Upon the Contractor's request for a tax exempt certificate, if the Government fails to provide tax exempt certificates to the Contractor, the Contractor shall notify the DESC Contracting Officer and invoice the applicable payment office for said taxes as an additional line item on the invoice. The DESC Contracting Officer may authorize payment of the tax if the ordering office or activity refuses to issue the tax exemption certificate.

(b) **GOVERNMENT OPTION TO DEDUCT TAX AND FURNISH TAX EXEMPTION CERTIFICATES.** If this contract provides that the Contractor is to invoice for the Federal tax, the supplies to be furnished under such item at the time this contract is entered into are generally intended for a purpose for which tax exemption cannot be claimed. However, in instances where the invoice price for any item includes the excise tax and tax exemption can be claimed, the applicable tax may be deducted from the order or the invoice by the Government and a tax exemption certificate furnished in lieu of paying the tax. Tax exemption certificates to be furnished under this paragraph (b) will be issued by the Ordering Officer.

In the event the Contractor spills any oil (including, but not limited to, gasoline, diesel fuel, fuel oil, or jet fuel), the Contractor shall be responsible for the containment, cleanup, and disposal of the oil spilled.
